

*Baq it and bin it.*

Allowing your dog to foul footpaths, pavements, the Glebeland area and road and path verges is anti-social and dangerous to health. It is also an offence to allow a dog to foul roadside pavements and verges within areas with a designated speed limit.

There is no such thing as "The dog pooh fairy" who comes around to pick up unwanted fouling, that is the responsibility of the dog owner.

There are many dog owners who take care to clean up after their dogs, it's easy, take a bag with you, pick up any dog pooh and put it in the dog waste bin. A simple act which will be much appreciated by other pedestrians and children who will no longer have to dodge the minefield of fouling whilst going to school and walking through the village.
